Additional Information

If you are unable to proceed with your IUI, your Fertility Specialist may suggest you:

a. cancel the cycle and try again next month (in which case your cycle will be considered complete and applicable cancellation fees will be deducted from your cycle payment)

OR

b. undergo an egg collection and convert to IVF (fees will be provided to you).

1. All medications listed with the Pharmaceutical Benefits Scheme (PBS) will require a co-payment to the pharmacy of approximately $25 per script. Any possible additional medications prescribed that are not on the PBS will be charged at full cost.

2. Blood tests and external ultrasound imaging scans performed during a treatment cycle are not Medicare eligible and may incur private costs for patients set by the service provider.

** Out-of-pocket cancellation fees only apply when a cycle is cancelled by the patient due to a non-medical conflict or change in personal circumstances. Where cancellation is medically necessary or recommended for clinical reasons, the cancellation will be bulk billed and no out-of-pocket cancellation fee will apply.
